Some manual modifications in improving Latex file's quality

Duong Do

July 26$^{\text{th}}$ 2016

1. Header and Footer
   Because there is only one template, the content of header and footer is fixed. For any change in content of the header and footer go to this latex file and have changes by yourself.

2. Image
   For special image with floating, we encourage you to take a look at *Minipage Latex* for full explanation.

3. Undesired format
   Because the process cannot be totally perfect, if you see any undesired format, please change it by yourself.
